Meaningful Learning

**ACTIVE**
Learning is achieved through experiences and real-world interactions

**CONSTRUCTIVE**
Learning from any questions or errors that arise from experiences

**INTENTIONAL**
Learning acquired through specific needs and goals

**COOPERATIVE**
Two heads are better than one!

**AUTHENTIC**
Learning through simulations and real world examples of principles

- Can we implement curricula that promote meaningful learning and if so, at what scale?
- Are we too dependent and accustomed to the standardized testing model of education simply because of the convenience factor and time constraints?
- Won’t there still be need for standardized tests to gauge a student’s understanding?
